Allowable Subject Matter

1. Claims **87 and 89-104** (*renumbered 1-17, respectively*) are allowed.
2. The following is an examiner's statement of reasons for allowance:

Regarding *amended* claims **87, 95, and 98**, the closest prior art of record, *Ludwig et al. (U.S. 6,237,025)*, as well as the other prior art of record fail to teach “*wherein the at least one service endpoint is configurable as an authentication service and a presence service such that the at least one service endpoint is able to authenticate and publish a presence of each user endpoint hosted by and independently executable through the at least one service endpoint*” in combination with the other recited limitations of these claims.

Regarding claims **89-94, 96, 97, and 99-104**, these claims are further limiting to the above claims and are thus also allowable over the prior art of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled “Comments on Statement of Reasons for Allowance.”

Response to Arguments

3. Applicant's arguments with respect to the previous “new matter” objection to the specification have been fully considered and are persuasive. This objection has been withdrawn.

Art Unit: 2467

4. Applicant's arguments with respect to the previous rejections under 35 U.S.C. § 112, 1st paragraph have been fully considered and are persuasive. These rejections have been withdrawn.

5. Applicant's arguments with respect to the prior art rejections in view of *Ludwig* and *Yoakum* have been fully considered and are persuasive in light of Applicant's current amendments. These rejections have been withdrawn.
